

BROOKSIDE

WOOD PRODUCTS LTD.

High Quality American Built Furniture Since 1986

Furniture
CATALOG

Quality HAS NO FEAR OF TIME

Every *elegant piece* we make is crafted to become a family classic. Our careful selection of pattern grade woods and *attention to all details* of each piece are the secrets to *creating something of special value*. Our products are *always welcome* in homes of distinction.

TIPS TO MAKE YOUR FURNITURE last a lifetime

remove dust Dust buildup is made of small airborne particles and may scratch or dull the surface if not removed correctly. Simply wipe the surface with a cloth dampened with a cleaning polish or mild detergent.

clean Fingerprints, cooking fumes, smoking residue, etc., accumulate on any finished surface. None of these contaminants will harm our finish, but they should periodically be removed to restore the finish to its original luster. Just wipe the surface with a cloth dampened with a non-wax containing polish or mild detergent solution. Avoid the use of ammonia based products or silicone oils as they may cause damage if used over a long period of time.

wipe up spills The finish is durable and resistant to most household spills. However, spills should be wiped up promptly to avoid potential problems.

avoid over-exposure Excessive prolonged exposure to direct sunlight, high temperatures and high humidity can cause damage to both the finish and the wood itself. These should be avoided.

Following these simple steps will keep your finished piece looking like new for many years to come.
